

Söderberga Allé 52
Bromma Stockholm

November 20, 2021

Emelie Bohlin
Ericsson, Stockholm

Hello!

I am Soumya Prasad. Please allow me to introduce myself. I am an engineer with almost 12 years of experience in various areas of product testing.

I currently work as a Senior Consultant at B3 Innovation AB, on assignment as QA Test Automation Specialist at Nasdaq, Stockholm since April 2021. I work with TestNg, gradle-based clearing system project, writing integration and API Integration tests, with equal emphasis on smooth CI performance of API tests and best practices to eliminate test flake. I take deep interest in efficiency, speed of builds on test pipelines, with keen eye to automate strategic integration points be it between java services, APIs or between service and event flows.

I find this opportunity of Test Manager at Ericsson very exciting and suitable for my competence, well-rounded test experience and commitment to product quality. I bring with me a get-it-done attitude with endless zeal to learn everyday, collaborate and promote quality mindset in the teams I work in.

I look forward to your reply.

Sincerely,

Soumya Prasad
