Eleonor Larsson  
SAVR, Stockholm

**Hello!**

I am Soumya Prasad. Please allow me to introduce myself. I am an engineer with over 15 years of experience in various areas of product testing.

I currently work as a Senior Consultant at B3 Innovation AB, on assignment as Senior Test Automation Engineer at SJ, Stockholm.

I find this opportunity of Quality Assurance Lead at SAVR as a very good match for my QA background and my past experience working with financial services domain, as NASDAQ. I also have worked on 2 previous jobs in B2C companies- both being in the public transport domain - for taxi/train booking apps. At SJ, I work closely to evangelize end to end testing and also to setup automation frameworks at various levels of integration with sub-systems. I have hands on experience with an array of testing techniques and tools and comfortable with Java, Typescript and yaml based CI setups.

I am a Swedish citizen, communicate in Swedish at my current job(Oral/written), with professional fluency in English.

I look forward to your reply.

Sincerely,

Soumya Prasad
